The Neukölln shipping canal connects Sonnenallee with Maybachufer, touches neighborhoods and cultures and has always supported industrial and social transformations. A true original. The area surrounding Ziegrastrasse is a hot spot for pop-ups and flea markets in industrial halls, a neighborhood for culture and art and is currently developing into a hub for visionaries. An area once dedicated to the transport of containers and railroad scrap on ships, is now home to social associations, convention centers, underground clubs, and start-ups that not only share a space, but also a passion for all things new, contemporary, and extraordinary. Typical Neukölln.
